COA Revisions

Revisions to Cost of Attendance (COA) used to calculate the net price of attendance can be made in this component.

Consult the instructions and screens to make sure you are reporting the correct aid amounts for the correct groups of students.

College Affordability and Transparency Lists

Net price amounts calculated in SFA will be used to populate the U.S. Department of Education's College Affordability and Transparency lists.

Interactive Edits and Error Messages

SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at (877) 225-2568 for resolution.

Context Boxes

You will find optional text boxes throughout SFA. Context boxes allow you to provide more information about the data you enter. Some of these context boxes may be made available to the public on College Navigator, so make sure that the information you enter can be understood easily by students, parents, and the general public.

Section 1: Comparison Chart**Comparison Chart**

Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 is correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component.

Note: Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

IPEDS collects important information regarding your institution. All data reported in IPEDS survey components become available in the IPEDS Data Center and appear as aggregated data in various Department of Education reports. Global Edits				
Perform Edits	The number of non-first-time, full-time undergraduates (item A01 minus item A02) is less than the number of non-first-time, full-time grant awardees (item B01 minus item C01). These data must be corrected as they are not accurate as currently reported. (Error #7350)	Fatal	Yes	
Reason:	Overridden by administrator. This institution confirms there were NFTFT students who received grants from other sources known to the institution and are therefore not reported in Part C, but are reported in Part B. Therefore the edit error is incorrectly identifying the data as inaccurate. JI			
Related Screens:	Part A - Establish your groups			
Perform Edits	The difference between the number of Group 1 (all undergraduate) students receiving grant or scholarship aid from the federal, state/local government, the institution or other sources known to the institution, and the number of Group 2 (full-time, first-time undergraduate) students receiving grant or scholarship aid from the federal, state/local government, or the institution, (140-98=42) is greater than the difference of all Group 1 and Group 2 students (156-146=10). Please correct your data or explain. (Error #7342)	Explanation	Yes	
Reason:	The reason for this is because of an outside, non-governmental scholarship that is included in the first figure and is only included in this cell and no where else in the survey. This scholarship goes to any student living in Cuyahoga county.			
Screen: Part C - Enter Information about Group 2				
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 7,000 and 10,500 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	Only one student received an outside loan for this time period and the amount was \$4,000.			
Screen: Part E - Enter Information about Group 4				
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	The amount has been reviewed and is accurate. It also higher than in previous years.
