Comfort, Joy and Achievement

Who is Hattie Larlham?

In 1961, Hattie Gadd Larlham was working as a respected pediatric nurse at the former Robinson Memorial Hospital in Ravenna, Ohio when one of her neighbors gave birth to a baby girl with a severe brain anomaly. At that time, most doctors advised parents of children with profound disabilities to institutionalize their children and “walk away.” Some doctors even used the term, “unsalvageable.” Mrs. Larlham didn’t see it that way.

One night over dinner in sharing with her husband and young children the story of Baby Alice and the fact that the baby had nowhere to go, exasperated, Mrs. Larlham said, “Why doesn’t someone do something?” Her oldest son, Chuck, replied, “Aren’t we someone?” With that, Hattie Larlham quit her post and with her family opened their Mantua farmhouse to care for babies and children with profound developmental disabilities.

What started as one nurse’s single act of compassion toward a child in need is today an organization that serves more than 1,000 children and adults across Ohio. The organization is named for Mrs. Larlham and is a leading provider in the field of intellectual and developmental disabilities.

I have a great team at the Group Homes. We have a lot of autonomy and everyone works to provide the right environment for our adults. My favorite part of my job – next to getting to know all our residents - is mentoring my staff and seeing them grow professionally.”

Okey Ekechi, Manager of Hattie Larlham Group Homes and 2018 Ohio Manager of the Year

WHAT WE DO

Residential Care

The Hattie Larlham Center for Children with Disabilities is home to 124 children and young adults with the most severe disabilities and medically fragile conditions. The Center features a warm-water pool; a multisensory room filled with twinkling and relaxing lights; and a newly renovated wheelchair-accessible outdoor playground and indoor play space.

Community Programs

Constant Companions is our unique day program that provides adults with opportunities to explore the community, set and achieve goals, and develop friendships. In addition to cultural, recreational, and educational outings, participants work on independent living skills, volunteer for local groups, and enjoy social visits with other organizations or at local dining establishments. Our Activities staff serves more than 200 adults at eight locations throughout Northeast Ohio.

Community Homes

Community homes foster independence and socialization. Adults with disabilities live together as a family and on-site caregivers manage their medical, personal, recreation and behavioral health needs. Residents attend neighborhood and community activities and have the opportunity to receive work training services.
